

Name: _____

Date: _____

Vocabulary Learning: Function Drill Practice

Needed Materials

Vocabulary Function Flashcards

How To Play

Sit down at a table with your child. Show your child a card and ask one of the following questions:

- What does ____ (vocabulary word) do?
- What do you do with _____ (vocabulary word)?

Example:

- What do you do with an apple? Eat
- What does a dog do? Bark

If your child doesn't know the answer, give it to him/her while explaining your reasoning. Then, ask the question again and see if he/she says the correct answer! If not, provide the correct response and move on.
